SOFTWARE ENGINEER

Software Engineer with 4+ years of experience designing, developing, and deploying full-stack web applications. Proficient in building scalable backend systems using Laravel, Django, and Flask, and crafting responsive, user-focused frontend interfaces with React and Vue.js. Experienced in RESTful API development, relational database design (MySQL, PostgreSQL), and cloud integration (AWS, Azure). Strong understanding of modular architectures, multi-tenant systems, and authentication workflows, including RBAC and secure login flows. Adept at applying software development best practices, working within Agile/Scrum teams, and collaborating across disciplines. Passionate about writing clean, maintainable code and delivering robust, high-quality solutions that improve user experience and operational efficiency.

KEY COMPETENCIES

Python - Django	Version Control	Effective Communication
JavaScript - React, Vue.JS	Unit Testing	Strong Team Collaboration
PHP - Laravel	Linux Environment	Project Management

WORK EXPERIENCE

Lori Systems - Lagos, Nigeria | Remote

Backend Developer   **Aug 2022 - Feb 2023**

- Designed and implemented scalable server-side logic, RESTful APIs, and database interactions using Django.
- Wrote efficient, reusable, and testable code, with a focus on performance optimization and maintainability.
- Collaborated closely with frontend developers to ensure seamless integration between UI components and backend functionality.
- Participated in code reviews, offering constructive feedback to uphold code quality, readability, and best practices.

Brilith Solutions - Lagos, Nigeria | Remote

Fullstack Developer   **Feb 2023- Nov 2024**

- Developed and maintained full-stack web applications using React.js for the frontend and Django for backend services.
- Designed and implemented RESTful APIs to enable efficient communication between client and server.
- Built responsive, interactive UIs with a focus on cross-browser compatibility and mobile-first design.
- Integrated third-party APIs and optimized performance to enhance overall user experience and application reliability.

RDAS Solutions - Lagos, Nigeria | Remote

Software Engineer   **Jan 2025 - Present**

- Built a modular Laravel 12 monolith with multi-tenant support and strict organization-level data isolation.
- Developed 15+ feature modules including Email, Logger, Sales, Store, Dashboard, Products, Customers, Subscription, Rewards, Reports, and more.
- Implemented 5-digit organization code-based sign-in with custom login logging and audit trails.
- Integrated Vue.js via Vite for dynamic frontend workflows and authentication.
- Designed and enforced RBAC using Laravel Gates, Policies, and Middleware.
- Engineered a real-time activity logging system with Laravel Events and Listeners for user and API tracking.

EDUCATION & CERTIFICATIONS

Havard University

Introduction to Programming with Python

Harvard University

Web Programming with Python and JavaScript

Lagos State University

B.Sc. Chemistry

FRAMEWORKS & TOOLS

FRAMEWORKS

Pandas, Numpy, Django, React, Node.JS, React Native, Laravel, Vue.js

TOOLS

Excel, MySQL, SQLite, MongoDB, PostgreSQL, Selenium, Git, Github, Xdebug, AWS, Azure.

CS50 Certificate

CS50 congratulates

Oluwatoni Sobande

on completion of CS50's Introduction to Programming with
Python, including nine problem sets and one final project.

Awarded from Cambridge, Massachusetts,
in the year two thousand twenty-four.

David J. Malan
Gordon McKay Professor of the Practice of Computer Science
Harvard University
